Commentary

Net performance of OCP Credit Strategy Fund (the "Fund") was 2.19% and 7.64% for August and year-to-date, respectively. The Credit Suisse Leveraged Loan, Credit Suisse High-Yield and S&P 500 TR indexes returned 0.79%, 2.35% and 0.14%, and 6.53%, 14.61% and 7.82% during August and year-to-date, respectively.

Strong positive performance during the month was a reflection of continued positive market sentiment, as well as strong performance in several of the Fund's larger positions. In August, the vast majority of the Fund's positions were positive contributors, with a limited number of negative positions.

You will usually pay brokerage fees to your dealer if you purchase or sell units of the investment fund on the Toronto Stock Exchange ("TSX"). If the units are purchased or sold on the TSX, investors may pay more than the current net asset value when buying units of the investment fund and may receive less than the current net asset value when selling them. There are ongoing fees and expenses associated with owning units of an investment fund. An investment fund must prepare disclosure documents that contain key information about the fund. You can find more detailed information about the fund in these documents. **The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account certain fees (such as redemption fees or optional charges) or income taxes payable by any unitholder that would have reduced returns.** Investment funds are not guaranteed, their values change frequently and past performance may not be repeated.
